### Profile

I build practical software for teams that need useful internal tools, customer systems, workflows, and durable infrastructure. My work spans product thinking, Rails application development, frontend implementation, deployment, and hands-on UX/UI design.

### Skills

#### Application development

- Ruby on Rails
- Ruby
- Gems
- JavaScript
- jQuery
- jQuery Mobile
- SvelteKit

#### Frontend and design

- HTML
- CSS
- Tailwind
- Bootstrap
- Grid
- Flexbox
- Framer

- Figma
- UX design

## Infrastructure

- MySQL
- Postgres
- DigitalOcean
- Linode
- Ubuntu
- Passenger
- Nginx
- SSH keys
- Capistrano
- SSL certificates
- Git
- Netlify

## Creative tools

- Procreate
- Krita
- Blender
- AI-assisted visual direction
- Static site generators

# Experience

**MBLZ**

**2016 TO PRESENT**

## Full-stack developer

- Built and maintained CRM software for small businesses.
- Developed systems for managing customers, clients, phone workflows, invoices, and related operations.
- Worked across Ruby on Rails, Nginx, Passenger, MySQL, and Twilio.

## Rackspace

2010 TO 2015

### Senior developer

- Worked on internal applications that managed contracts.
- Integrated Salesforce through its API.
- Encrypted documents at rest to satisfy audit requirements.
- Implemented workflows that streamlined sales and contract processes.
- Worked closely with business representatives to gather requirements and ship practical tools.

## USAA

3 YEARS

### Tech lead

- Led work on intranet applications.
- Built server-side ASP and JScript systems.
- Supported internal teams with practical business software.

## U.S. Navy

4 YEARS

### E5, honorably discharged

- Worked on the flight deck of the aircraft carrier Saratoga.
- Attained the rank of E5 during a short enlistment.
- Held a security clearance and served in the Mediterranean.

## Creative Work

Alongside engineering, I work with visual tools including Framer, Figma, Blender, Procreate, Krita, and AI-assisted art direction. That gives me a stronger bridge between product implementation and the visual systems users actually experience.

# Paul Vudmaska

Practical consulting for founders and operators who want clear direction, hard tradeoffs, and executable plans.

BASED IN SAN ANTONIO, TEXAS · REMOTE WORLDWIDE
